PROFILE

Executive support and procurement professional with **16+ years** keeping senior leaders, vendors, and cross-border orders on schedule. Six years as Secretary to the President Director at PT Thamrin Group, after two years in procurement and China import. Since 2026 I have designed five approval-first automations and published four documented projects.

SELECTED ACHIEVEMENTS

- **44.7% below the highest bid.** Normalized four 1688 supplier quotes to one delivered-cost basis for 200 units, closed two risks before the PO, and awarded Supplier C at ¥3,940 delivered.
- **44 annotated captures, six findings, six fixes.** Ran a task-based study of Alibaba's Buy Now path against Made-in-China for a high-value Indonesian buyer and delivered a bilingual report a product team can act on.
- **Five recurring workflows automated, zero unapproved posts.** Reminders, content, job leads, procurement drafts, and video run on a schedule with a human approval gate and an audit log.
- **An offline-first learning app, tested to 320 px.** Five Montessori trails across three age bands, with local audio, saved progress, and a parent view.

SKILLS

Executive support	Calendar & inbox management, meeting coordination, executive correspondence, confidential documents, travel & appointments
Research	Task-based usability testing, competitor benchmarking, cost comparison, evidence annotation, bilingual reporting (EN / ID)
Digital build	Responsive HTML & CSS, offline-first PWA, service worker, Capacitor, Flask, SQLite, SQL, cross-device QA
Procurement	Supplier sourcing, RFQ preparation & tabulation, bid normalization, landed-cost analysis, vendor evaluation, purchase orders, China import
Automation & AI	Workflow design, approval gates, scheduled jobs, webhook logging, API integration, AI chatbot instructions, prompt design
Tools	Excel, Word, PowerPoint, Google Workspace, Notion, Canva, Lindy, Claude & ChatGPT, GitHub

EXPERIENCE

Secretary to the President Director

OCT 2019 — JUL 2026

PT Thamrin Group · Palembang, Indonesia

- Ran the President Director's calendar, appointments, meetings, and daily schedule across competing priorities, keeping decisions and follow-ups moving.
- Prepared and protected confidential executive documents, correspondence, and administrative records with accuracy and discretion.
- Coordinated between the director, internal departments, vendors, business partners, and external stakeholders, so priorities did not stall between teams.
- Supported procurement, purchasing, and import with China-based suppliers, including documentation and delivery follow-up; built and now operate five approval-first automations for recurring admin work.

Procurement Staff

OCT 2017 — OCT 2019

PT Thamrin Group · Palembang, Indonesia

- Coordinated procurement and purchasing, including supplier sourcing and order processing from purchase requests.
- Managed vendor communication, RFQs, procurement documentation, order tracking, and delivery follow-up to keep purchasing on schedule.
- Liaised with internal teams, suppliers, and external partners; kept procurement records accurate and timely across parallel requests.

Sales Administrator

JAN 2010 — SEP 2017

PT Toshiba Visual Media Network Indonesia · Palembang

- Supported the Branch Manager with scheduling, administration, and daily operations; processed sales orders and coordinated fulfilment with the sales team.
- Verified branch documentation for accuracy and completeness, improving documentation accuracy and cross-functional coordination.

SELECTED PROJECTS · 2026

Alibaba conversion study

Bilingual usability study of the Buy Now path: 44 annotated captures, six findings, six prioritized fixes, and a 69.6% freight share.

italiani1119-luck.github.io/projects/alibaba-research.html

1688 RFQ award

Four bids normalized to delivered cost for 200 units; two risks closed before the purchase order; 44.7% below the highest bid.

italiani1119-luck.github.io/projects/rfq-1688.html

Approval-first automation

Five workflows that draft, remind, log, and publish, with a person approving anything that leaves the machine.

italiani1119-luck.github.io/projects/automation.html

Montessori learning app

Five trails and three age bands, playable offline, with local audio and a parent-readable progress view. Live app and source are public.

WHAT I BRING TO A TEAM

- **Executive-grade discretion.** Seven years handling confidential documents, correspondence, and the director's day without being asked twice.
- **Procurement that can be defended.** Every recommendation comes with a comparison sheet, checked assumptions, and the evidence behind it.
- **Automation with a brake.** Bots draft, remind, and log; a person signs off on anything that leaves the building.
- **Remote-ready communication.** Written updates, clear handovers, and follow-up systems that work across time zones (UTC+7).
