Automation & AI Projects

Automated Daily Reminder & Task Tracking System | 2026

- Built a scheduled workflow that sends reminders three times daily (04:00, 08:00, and 16:00 WIB), each with a one-click "task done" link.
- Set up webhook-based logging so completed tasks are recorded automatically in a tracking sheet, with no manual input.
- Automated a monthly recap email summarizing completed tasks and reminder activity.

Procurement Chatbot (AI Assistant) | 2026

- Designed and configured an AI chatbot (powered by Claude) that answers questions on the full procurement cycle: purchase requisitions, RFQ/RFP/tender, vendor evaluation, purchase orders, goods receipt, three-way matching, and payments.
- Wrote detailed system instructions so the chatbot can draft procurement documents such as RFQs, vendor evaluation criteria, and contract checklists.
- Connected the chatbot to email so procurement information can be sent to recipients automatically.
- Applied 2+ years of hands-on procurement experience to define the chatbot's scope, terminology, and workflow accuracy.
